EDUCATION

National Institute Of Technology, Agartala

2023 – 2027

B.tech-Computer science and engineering - CGPA - 64.3%

Agartala, India

TTWUR Jr. College(B) Thirumalayapalem

2021 – 2023

MPC- Maths, physics, chemistry - CGPA - 84.3%

Thirumalayapalem, Khammam

ZPP HIGH SCHOOL

2021

Bord Of Secondary Education-Percentage-100%

Suryapet, India

COURSEWORK / SKILLS

- Data Structures & Algorithms
- Network Security
- Artificial Intelligence
- Web Development
- Operating Systems
- Database Management System (DBMS)
- OOPS Concept

PROJECTS

Hospital Emergency Room Dashboard | Excel, Power Query, Pivot Table, Power Pivot, Data Visualization

- Developed an interactive Hospital Emergency Room Dashboard to monitor patient flow and operational performance. Analyzed patient admissions, wait times, satisfaction scores, attendance status, and department referrals. Created dynamic visualization and KPI metrics for healthcare decision-making. Enable monthly and yearly performance tracking through interactive filters and slicers.

* Processed and analyzed hospital patient data containing 400+ records. Designed KPI cards for Total patient, Average Wait Time, admission, gender, age groups, and referrals. Automated monthly healthcare reporting and visualization. Improved data-driven decision-making through dashboard insights.

• **Blinkit Sales Performance Analysis Dashboard** | Power BI, Excel, Power Query, DAX, Data Visualization

- * Developed an interactive Power BI dashboard to analyze Blinkit's sales performance, outlet distribution, product categories, and customer ratings. The dashboard provides business insights through KPIs, trend analysis, and dynamic visualizations, enabling data-driven decision-making and performance monitoring.

* Analyzed 1.2M+ total sales data across multiple outlets and product categories. Created KPI dashboards for Total Sales, Average Sales, Number of Items, and Average Rating. Built interactive charts to analyze outlet performance by size, location, and type. Performed data cleaning and transformation using Power Query. Utilized DAX to create calculated measures and business metrics. Designed dynamic filters and drill-through reports for detailed analysis. Identified sales trends and product performance to support business decisions. Improved reporting efficiency through automated and interactive visualization.

TECHNICAL SKILLS

Languages: Python, Java, C, C++, SQL, Microsoft Excel, HTML, CSS, JavaScript.

Developer Tools: VS Code, Androide Studio, Leetcode, Numpy, Mysql, Microsoft Excel, Power BI,

Technologies/Frameworks: Linux, GitHub.

EXTRACURRICULAR

- Solved 200+ DSA problems on LeetCode. Developed strong problem-solving and algorithmic thinking skills. Practiced Data Structures, Algorithms, and SQL-based challenges.
